

MAYA GABEIRA

Bio

Maya Reis Gabeira was born in Rio de Janeiro, on April 10, 1987. Unlike many kids of her generation, she was introduced to surfing when she was already a full-grown teenager. Gabeira has already been called the "Super Woman of Surfing." But she still gets anxious and stressed a few days before a storm kicks in. Maya was one of the first women to pursue a professional career in heavy waters and, today, she is one of the highest paid female big wave surfers on the planet. The good-looking surfer-model is one hell of a woman. And she defies death as a way of living. Why? Because it is the only thing that really makes her happy.
